The General Secretary to the Government of
His Highness the Maharaja of Mysore,
Bangalore.

Subject:- Mysore Poultry Disease Investigation Scheme.

Sir,

800 V 867

With reference to the correspondence ending with this Department letter No.F.13/37-A.H., dated the 4th August 1937 I am directed to say that scheme mentioned above was considered by the ad hoc Veterinary Committee and the Advisory Board at their meetings held in November 1937. Relevant extracts from the proceedings of the Committee and the Board are enclosed for information.

2. I am to add that it has now been decided to place the scheme, as modified by the Committee and the Advisory Board, before the Governing Body at its next meeting and to request that this Department may be informed whether the proposed modifications are acceptable to the Government of Mysore.

I have the honour to be,
Sir,
Your most obedient servant,

S. C. Sarkar

9 ~~In spite of~~ Apart from the share to be borne by the I.C.A.R. the share of expenditure to which Government will be committed viz., Rs 34,470 spread over a period of five years -- of which Rs 10,350 has to be spent during the first year -- is very heavy. Left to ourselves, we could not think of such heavy expenditure in the present financial condition for this single item of research. If this should be sanctioned, there should be substantial curtailment of expenditure in this department in some other directions so as to counter-balance this extra expenditure.

FINANCIAL SECRET. U.O.No. FI. 3372 2.9. APR. 1938 BANGALORE.

Some research work on poultry is already being conducted by the Agricultural department and a provision of Rs 2,400 has been provided for it in the next year's budget. It is for consideration whether the new scheme is necessarily to be sanctioned and if this is to be sanctioned whether the research work now done cannot be avoided or deferred utilising the provision therefor for the new scheme. The Budget has been fixed up and additional grant at this stage is not desirable. The department has to manage with the Budget grant. Whether it is worth while incurring even the reduced expenditure for this purpose is for consideration.

~~Although the Hon'ble Ministers~~

20) (1) ~~Hon'ble Ministers stated~~ that it is not necessary to incur expenditure on items 2, 3, 4 & 5 aggregating to Rs 4000/- (non-recurring) in view of the additional accommodation for birds now available. Item 5 & (Rs 5000 recurring expenditure) is also proposed to be omitted as the expenditure thereon could be met from the provision made in the budget of the Game ~~Protection~~ Sanctuaries. From this it is seen that there is no real reduction in the total fund share of the cost but that, instead of asking for an additional grant it is proposed

20 Letter No F 45 (17)/39-A.H d. 7.8.40. from the Secy. I.c.A.R. states that the revised technical programme of work ~~carried out~~ during the first year of investigation has been approved by the Advisory Board.

US According to the statement of expenditure for the Scheme a total sum of Rs 36,300/- is required as detailed below:-

Non-recurring Rs 7500/-

Recurring	1st. year	2nd. year	3rd. year
	Rs 9220/-	Rs 9580/-	Rs 10000/-

Total = Rs 36,300/-

Out of the above, the I.c.A.R will bear Rs 14700/- spread in equal proportions over 3 years & the balance Rs 21600/- has to be met by this Govt. The Secy. I.c.A.R. has stated in his letter d. 9.9.1939 that, subject to the annual research grant of the Council for 1940-41 being voted by the Central legislature, it is proposed to allocate funds for the scheme early next year and a formal letter of sanction will be issued in due course. No such letter has so far been received. The Secy. I.c.A.R may perhaps be requested to intimate whether funds have been allocated for the Scheme. Two drafts are put up. Subd. for orders.

(Statement of expenditure sanctioned by the I.C.A.R)

Serial No.	
27	Letter No. A.H 71-649/38-39 d. 20-1-41 from the Dir. of Agri. Furnishes information called for in Ser. No. 26.
	59) Subd. with reference to para 53 above. The Dir. of Agri. states that the terms & conditions of the grant may be accepted & that the Scheme may be commenced with effect from 1-4-1941.
	66) A sum of Rs 7500/- has been sanctioned by the I.C.A.R. for non-recurring expenditure. The Dir. of Agri. states that poultry houses etc. to the value of Rs 2000/- have already been provided in the Serum Institute & that the value of equipment to be provided from the existing resources of the Dept. (such as refrigerator & incubators) is Rs 1000/-. The balance of amount to be provided for non-recurring expenses is therefore Rs 4500/- and the Dir. of Agri. recommends that this amount may be met from the excess over the budgetted profits of the Serum Institute in the current year.
	61) The Govt's share of recurring expenditure for the current year (for two months April & May) is Rs 592/- which is proposed to be met by re-appropriation. The share of the I.C.A.R for three months April, May & June is Rs 1150/-. The Dir. of Agri suggests that the I.C.A.R. may be requested to remit one year's grant viz. Rs 4900/- for the period from 1-4-1941 to 31-3-1942. The Fin. Secy. may perhaps be consulted. For orders.
	Km 24/1/1941.

Letter No. Fl 139-1752/40-41 d. 4.2.41. from the Dir. of Agri. Recommends that a provision of Rs 5000/- may be made in the next year's budget to meet this Govt's share of expenditure for the scheme.

69) Subd. with reference to paras 62 & 63 above. Regarding recurring expenditure during the current year, this Govt's share is Rs ~~Rs~~ 592/- for the months of April & May and this expenditure is proposed to be met by reappropriation.

'A' Directors' Ltr d. 20.1.1941

'J'

70) Regarding the non-recurring expenditure. As per the statement of expenditure sanctioned by the I.C.A.R. a sum of Rs 7500/- is required for this. Of this, the Dir. of Agri. states that poultry houses etc. Worth about Rs 2000/- have already been provided in the Serum Institute and that some equipment such as refrigerator & incubators worth Rs. 1000/- can be provided ~~to~~ from the existing resources. The balance of amount required for non-recurring expenditure is therefore Rs 4500/- and the Dir. of Agri. recommends that this amount may be met from the excess over the budgetted profits of the Serum Institute in the current year.

'A' Directors letter d. 20-1-1941.

71) Regarding this Govt's share for ~~a~~ recurring expenditure during the next official year (1941-42) the Dir. of Agri. recommends in his letter d. 4.2.1941 that a provision of Rs 5000/- may be made in the budget of the ensuing year. Financial Secy. has to be consulted. For orders

NOTE—Contn. Sheet.

Final Note by the Second Member of Council. 9

Subject:— Proposals to appoint Dr. P. M. Narayanaswamy Naidu, Veterinary Research Officer, as Poultry Disease Research Officer in grade Rs 300-30-600 and Mr. K. Ranganatha Rao as Veterinary Research Officer on Rs225/- per mensem in grade Rs 125-25/2-300.

A

The Governing Body of the Imperial Council of Agricultural Research has sanctioned a scheme for the investigation of poultry diseases in Mysore for a period of three years at a total cost of Rs 36,000/-, a sum of Rs 14,700/- being borne by the Imperial Council of Agricultural Research and the remaining amount by this Government. This scheme has been started with effect from 1st April 1941.

C & D

The Director of Agriculture has proposed (1) that Dr. P. M. Narayanaswamy Naidu, Veterinary Research Officer, may be placed in charge of the scheme, as Poultry Disease Research Officer in grade Rs 300-30-600, and (2) that Mr. K. Ranganatha Rao, permanent District Veterinary and Live Stock Officer on Rs 200/- per mensem against the grade of Rs 125-10-175, may be appointed as Veterinary Research Officer, in grade Rs 125-25/2-300 in place of Dr. Narayanaswamy Naidu and (3) that Mr. Ranganatha Rao's pay may be fixed at Rs 250/- per mensem in grade Rs 125-25/2-300, in view of the fact that he has had no increments for the last four years. I am of opinion that the above proposals may be approved with the modification that Mr. Ranganatha Rao may as Veterinary Research Officer be given Rs 225/- in the new grade.

E

The Dewan and the First Member of Council agree with me. Gracious sanction of His Highness is solicited to the Director's proposal modified as above.

M. Venkatarama

Second Member of Council.

Bangalore,

** ** ** **

Application from the Government of Mysore for a grant of Rs.31,815/- spread over a period of 5 years for a scheme for investigation into the disease of poultry. (Subject No.54 of the Agenda).

Mr. Monteith in introducing the scheme said that it was well known that people were becoming more poultry-minded all over the country but before it could be made a popular rural industry, it was essential that systematic research work should be carried out to find satisfactory methods of control for the very many diseases of poultry which are prevalent in India.

The Chairman explained that Dr.Naidu was particularly well qualified to undertake this class of work but that at present he lacked the special facilities and extra staff which would be necessary for carrying on systematic research into poultry diseases. It was agreed that it would be desirable that a station for such work should be established in the south, particularly as Dr.Naidu would be able to start work on an extended scale as soon as funds were provided.

The scheme was then examined in detail and was accepted with the following modifications:-

Recurring expenditure.

1. In view of the fact that one of the conditions for the grant of funds by the Imperial Council of Agricultural Research was that the expenditure should not be in relief of normal provincial expenditure, it was agreed that the Mysore Government should continue to pay Rs.175/- p.m. to the Expert for the first two years. For the three subsequent years, his salary might be borne on a 50 : 50 basis. This would increase the provision to be made by the Government of Mysore to Rs.10,500/- and decrease the provision to be made by the Imperial Council of Agricultural Research to Rs. 10,380/-.

2. After discussion, it was agreed that the Council

should not be asked to make any provision for conveyance allowance.

Accordingly items 2, 4, 6 and 8 in the second column should be deleted.

3. It was agreed that the Laboratory Assistant's pay should be decreased to Rs. 25/- making the total Rs. 1,500/- instead of Rs. 2,400/- as originally proposed.

4. The provision by the Council for Travelling Allowance for officers and establishment should be decreased to Rs. 250/- per annum.

With these alterations the total Recurring Expenditure would be Rs. 51,460/- (of which the Government of Mysore would provide Rs. 29,980/- and the Imperial Council of Agricultural Research Rs. 21,480/-).

Non-recurring Expenditure.

It was agreed that the cost on account of items, 2, 3, 4 and 5 should be borne by the Government of Mysore and the cost of cages increased to Rs. 1,000/-.

With these alterations the scheme would involve an expenditure of Rs. 58,960/- (Recurring Rs. 51,460 and non-recurring Rs. 7,500/-) to be financed as below:-

The Government of Mysore	Rs. 33,980/-
Imperial Council of Agricultural Research.	Rs. 24,980/-

** ** ** **

60

Extracts from the proceedings of the Advisory Board dated the 13th November 1937.

** ** ** **

Application from the Government of Mysore for a grant of 31,815 spread over a period of 5 years for a scheme for investigation into the diseases of poultry £.
(Subject No.54 of the agenda).

Col. Olver in introducing the report of the Veterinary Committee on the subject said that this was a scheme on which there was an opportunity of giving further facilities to a very well qualified worker who was already taking special interest in poultry diseases as part of his ordinary work. It would be some time before the Poultry Research Institute at Izatnagar started and the Mysore Government had agreed to meet 50 per cent of the cost and to provide laboratory and accommodation facilities.

Mr. Richards said that as work in this direction was already in progress in the State, the Council's grant was clearly a subvention to the State Veterinary Department. He opposed the scheme.

Col. Olver said that this was a proposal to give Dr.Naidu facilities for taking up poultry diseases intensively. He was exceptionally well qualified and by providing him with further facilities, his whole-time services would be secured for the period of the scheme. Mr. Richards said that as the scheme had been put up by the Mysore Government it clearly showed that it related to the diseases of poultry prevailing in Mysore.

Mr. Rama Iyer by way of explanation said that Dr.Naidu, the State Veterinary Research Officer, was at present concerned with all veterinary research schemes, diseases of dogs, cattle etc. In view of the large number of diseases that annihilated poultry in many parts of India, it was thought that as Dr.Naidu had special aptitude for such work, he might take it up in as extensive scale as possible. As this work had not so far been started elsewhere

on a sufficiently large scale by a competent research officer, the Mysore Government came forward with a proposal to meet half the cost of the scheme and provided a whole time officer for the investigation of poultry diseases. Simply because the scheme came from the Mysore Government it should not be construed that it concerned the diseases of poultry in Mysore State alone. The object was to investigate poultry diseases common to the whole of India. In reply to the Chairman Mr. Rama Iyer assured the Board that Dr.Naidu would work whole time on investigation of the diseases of poultry as long as the scheme lasted. Messrs.Quirke and Kerr said that the results of the investigation would be of value to their provinces. Mr. Stewart also endorsed this view but added that the Board had already approved of the appointment of additional disease investigation officers at veterinary colleges for the investigation of poultry diseases. It did not therefore appear ~~necess~~ necessary to sanction a separate scheme for work of a similar nature.

Col.Olver explained that in regard to poultry diseases what was most required now was intensive research, and for this a fully qualified officer with laboratory facilities available, was coming forward. Research was quite different from investigation. The latter should be carried on all over the country but more than one research centre would be needed.

Mr. Stewart sought information regarding the nature of work that will be carried out by the proposed Disease Investigation Officers.

Col. Olver explained that he had been careful to insist from the start that Veterinary officers should not be engaged on research but on investigation which meant field work, obtaining material for investigation and research and precise information regarding diseases in the field. Research required entirely different qualifications and entirely different resources.

The Chairman said that one was a question of field investigation and the other was a matter of serious scientific research.

The report of the Committee was accepted.

SIR,

With reference to your letter No.D.5134/C.V.46-37-2 dated 18th January 1938 calling for my views on the modifications proposed by the ad hoc Veterinary Committee and the Advisory Board of the Imperial Council of Agricultural Research on the Mysore Poultry Disease Investigation Scheme, I have the honour to state that the modifications may be accepted.

The acceptance of the modified scheme commits Mysore Government to a non-recurring expenditure of Rs.4,500/- and a recurring expenditure of Rs.29,970/- spread over a period of five years. The details of these charges are given in the enclosed appendix.

I have to point out here that as indicated below the apportionment of charges between the Government of Mysore and the Imperial Council of Agricultural Research as communicated by the Secretary of the Imperial Council of Agricultural Research (Vide enclosure to your letter under reference) slightly varies from the figures worked out now in accordance with the modifications proposed

		As communicated by the I.C.A.R.	As worked out according to modifications proposed.
Apportionment of charges to be met by Government of Mysore.	Recurring	29,980/-	29,970/-
	Non-recurring	4,000/-	4,500/-
		33,980/-	34,470/-
Apportionment of charges to be met by the I.C.A.R.	Recurring	21,480/-	21,470/-
	Non-recurring	3,500/-	3,000/-
		24,980/-	24,470/-

I have the honour to be,
Sir,
Your most obedient servant,

Director of Agriculture.

To The Dir of Agriculture

Sir,

I have my to correspondence
end with your letter No R&C
3051 - HC 1101/36-37 d 8.4.38
re Cheyyur family dwarf
investigation scheme, I am
directed to observe that apart
from the share to be
borne by the I.C.A.R., the
share of expenditure to which
Govt will be committed is,
viz, Rs 34,470 spread over a
period of two years - of which
Rs 10,350 has to be spent during
the first year - is very heavy.
Apart from Govt's inability
to find of such heavy
expenditure, in the present
financial condition, for this

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

General and Revenue Secretariat

Dated, Bangalore, 5th April 1938.

No. D 7173/CV. 46-37-5

From

The Secretary to the Government of His Highness the Maharajd of Mysore,
Development Department.

To

The Director of Agriculture in Mysore,

Bangalore.

Sir,

With reference to correspondence ending with your letter No. Roc. 3051-H.c. 1101/36-37 dated 8th February 1938 re - Mysore Poultry Disease Investigation Scheme, I am directed to observe that apart from the share to be borne by the Imperial Council of Agricultural Research the share of expenditure to which Government will be committed, viz., Rs.34,470 spread over a period of five years-of which Rs.10,350 has to be spent during the first year - is very heavy. Left to themselves, Government could not think of incurring such heavy expenditure, in the present financial condition, for this single item of research. If this should be sanctioned, there should be substantial curtailment of expenditure in the Department in some other direction so as to counter balance this extra expenditure. I am therefore to request that this may be re-examined in the light of the above observation and a report submitted early for the consideration of Government.

I have the honour to be,

Sir,

Your most obedient servant,

Secretary to Government,
Development Department.

Telegraphic Address : "Agri., Bangalore."

DEPARTMENT OF AGRICULTURE

MYSORE STATE.

No. Roc.3051-Hc.1101/36-37. OFFICE OF THE DIRECTOR OF AGRICULTURE,

Bangalore, 16th April 193 8

GEN. & REVENUE SECRETARIAT. DEVELOPMENT BRANCH.

FROM

T. G. RAMA IYER, ESQ., B.A.,
DIRECTOR OF AGRICULTURE IN MYSORE,
BANGALORE.

To

M. Venkatanaranappa, Esq., B.A.,
Secretary to the Govt. of H. H. the
Maharaja of Mysore, Dev. Dept., Bangalore.

SIR,

Referring to your letter No.D.7173-C.V.46-36-5 dated the 5th April 1938 regarding the Mysore Poultry Disease Investigation Scheme, I have the honour to state as follows.-

In the Scheme as passed by the Advisory Board of the Imperial Council of Agricultural Research, the following items of non-recurring expenditure aggregating to Rs.4,500/- have been allotted to be borne by the Mysore Government:-

No.	Items.	Approximate cost.
2.	Four Poultry houses for keeping groups of diseased birds	2,000/-
3.	Two Poultry houses for keeping healthy birds ..	1,000/-
4.	One pigeon house	500/-
5.	Cost of Foster mother feeding troughs and other utensils ..	1,000/-

In view of the additional accommodation for birds now available it is not necessary to incur expenditure on items 2, 3, and 4 above aggregating to Rs.3,500/-. The expenditure under item 5 may also be reduced to Rs.500/- in view of the facilities now available. It is therefore possible to reduce expenditure on the items allotted to the Mysore Government to Rs.500/- only instead of Rs.4,500/- as originally contemplated in the Scheme.

As regards the recurring expenditure debitable to Mysore Government, the following economies may be effected:-

(1) Item 2, Conveyance Allowance Rs.1,500/- may be omitted.

(2) Item 12, Cost of chemicals, medicines and glass-ware, may be omitted as the requirements could be met out of the

53

current allotments for the Serum Institute. This will reduce the total Mysore Government share of recurring expenditure to Rs.29,970/- minus Rs.6,500/- or Rs.23,500/- (in round figures) in five years. This works out to Rs.4,700/- per annum. Out of this an expenditure of Rs.2,100/- on account of salary and Rs.600/- per annum on account of Travelling Allowance of Dr. Naidu is being incurred now. These two items amount to Rs.2,700/- per annum. The net additional recurring expenditure to be met by the Mysore Government on account of this Scheme can thus be reduced to Rs.2,000/- only per annum. It is not practicable to find this amount by re-appropriation from the present grants to the Agricultural Department. I therefore recommend the acceptance of the Scheme with the above modifications re: economies in the Mysore Government share of the expenditure, due additional provision being made in the next year's budget for Rs.500/- non-recurring and Rs.2,000/- recurring on account of this scheme.

I have the honour to be,
Sir,
Your most obedient servant,

Director of Agriculture.

Sir,

Subject:- Mysore Poultry disease investigation scheme.

In continuation of this office letter No.D.3177/C.V.46-37-9 dated 7th October 1938 on the above subject, I am directed to forward herewith for necessary action a copy of letter No.F.45(17) 39-A.H. dated 9th September 1939 from the Secretary, Imperial Council of Agricultural Research, together with copies of its enclosures and to request you to forward a detailed technical prggramme of the scheme(in triplicate) to this office before 4th October 1939.

I have the honour to be,
Sir,
Your most obedient servant,

for Secretary to Government,
Development Department.

M.M.

TECHNICAL PROGRAMME.

I. A general Epizootological survey of the diseases of poultry encountered in the State on a statistical basis, with a view to ascertain the variety of diseases to which poultry here succumb, on all the Government Farms and many private poultry enterprises distributed all over the State and the incidence of these diseases in them in relation to their age, sex and breed as also to the seasonal and regional conditions.

II. A systematic investigation of the diseases, considered under the following groups, with as objects, the ascertaining of their Nature, Cause, Prevention and Treatment.

1. Diseases caused by bacteria.

Fowl coryza, Salmonelloses, Pasteurelloses, tuberculosis and other germ-borne diseases will be investigated with reference to their epizootology, symptomatology, gross pathology, bacteriology, Histology, Immunology, Prophylaxy and therapy.

2. Diseases caused by Viruses.

Ranikhet disease, Fowl Pox (Diphtheritic Roup), leucosis and other virus diseases will be studied with reference to their symptomatology, gross pathology, bacteriology, Histology, Immunology Prophylaxy and Therapy.

3. Diseases caused by Fungi.

Aspergillosis, Oidiomycosis and Favus will be considered in regard to their symptomatology, gross pathology, Mycology - as far as facilities for this work are available in this Section - Histology, Prophylaxy and Therapy.

4. Diseases caused by Protozoon parasites.

Coccidiosis, Black head, Spirochaetosis and other protozoal diseases will be tackled with reference to their epizootology, symptomatology, gross pathology, protozoology, Histology, prophylaxy and Therapy.

Sir,

With reference to your letter No.A.H.1818/C.V.46-37/13/Gen.2, dated the 11th October, 1939, I am directed to say that the technical programme of work forwarded therewith was considered by the Animal Pests and Diseases Committee and the Advisory Board at their meetings held in December, 1939. The Committee were of the opinion that it was impossible to undertake the systematic investigation of all the diseases mentioned in the programme and wished that the Officer in Charge should specify the problems which he proposed to take up during the first year of investigation. The Advisory Board endorsed the views of the Committee.

I am to request that necessary action on the lines suggested by the Board may kindly be taken.

Technical programme of work relating to the Mysore Poultry Disease Investigation Scheme for the year 1940 - 1941.

98

I. A general epizootological survey on a statistical basis of the diseases encountered among the poultry in the State, with a view to ascertain the relative [illegible] of ailments annihilating [illegible] in Mysore.

II. Collection of photographs, pathological materials and representative museum specimens of the diseases encountered.

III. Systematic investigation of the following diseases with respect to the items detailed against them:-

1. Ranikhet (New Castle) Disease.

(a) Epizootology of the disease.

(b) The clinical manifestations of the disease under field conditions compared with those observed in other places.

(c) Study of the gross pathology of the disease.

(d) Incubation period and course of the disease.

(e) Infectivity of the discharges, body fluids and tissue suspensions to susceptible birds.

(f) Transmission of the disease to fowls by natural infection as well as by artificial transmission.

(g) Susceptibility of birds (other than fowls) as well as other laboratory animals to artificial infection.

(h) Bacteriological and histological examination of the tissues of the dead as well as ailing birds.

(i) Collection of immune birds, surviving after a natural attack of the disease, for purposes of cross immunity tests and for the recovery of immune serum.

(j) Differential diagnosis of the disease from Avian pest by cross immunity and serum neutralisation tests and from Range paralysis by histological examinations.

(k) Identification of the etiology of the disease with the virus of Ranikhet disease (from Mukteswar) and that of New

Castle disease (from Weybridge).

(l) Determination of the minimum infective dose of the virus.

(m) Vaccination as a prophylactic.

i) Preparation of Formolised tissue Vaccine.

ii) Safety and potency tests.

---

2. Fowl Pox (Diphtheritic Roup).

(a) Collection of different strains of Fowl pox virus and Pigeon pox virus both from within and outside the State.

(b) Differentiation of the Pigeon pox and Fowl pox Viruses by:

(i) Cross immunity tests.

(ii) Complement fixation reactions.

(c) Passaging the pigeon pox virus on chicken and Fowl pox virus on pigeon.

(d) Preparation of prophylactic vaccines employing

i) Pigeon pox virus.

ii) Chicken passaged Fowl pox virus.

iii) Fowl pox virus.

iv) Chicken passaged pigeon pox virus.

(e) Study of the relative merits and demerits of prophylactic vaccination against Fowl pox using the above vaccines by regarding

i) their immunising value.

ii) their depressant effect on the birds.

(f) Study of the optimal conditions for the preparation and use of the Prophylactic fowl pox vaccine with respect to:

i) Conservation of the virus,
ii) Fluid vehicle,
iii) Age of the vaccine,
iv) Age of the birds,
v) Mode of vaccination,
vi) Site and extent of vaccination.

Subject:- Scheme of investigation into diseases of poultry at Mysore.

Sir,

With reference to the correspondence ending with your letter No.A.F.1284/C.V.46-37-22, dated the 28th August 1940, I am directed to say that the scheme noted above has been sanctioned at a total cost to the Council not exceeding Rs.14,700 (rupees fourteen thousand and seven hundred only) spread over a period of three years (as per statement attached) on the terms and conditions mentioned in the schedule attached herewith.

2. The work under the scheme will, as proposed by His Highness' Government be carried out by Dr. P.N. Narainaswamy Naidu, Veterinary Research Officer. The post of Veterinary Inspector provided in the scheme may be filled up by His Highness' Government according to the ordinary rules of recruitment for such posts.

3. If the grant on the terms and conditions described above is acceptable to the Government of Mysore, the Council may be informed accordingly at an early date and the amount required for expenditure during the current

P.T.O.

Terms to be observed in connection with all schemes financed by the Imperial Council of Agricultural Research.

(i) That the grant will not be regarded as a subvention towards the normal work of the (State) Veterinary Department but will be exclusively utilised for the scheme of investigation into the diseases of poultry received from the Government of Mysore.

(ii) that an annual progress report concerning the work done during each financial year will be submitted to the Council.

(iii) that the expenditure incurred from the grant will be audited by the Comptroller, Mysore, who will furnish the Accountant General, Central Revenues, New Delhi, with a certificate that he had done so and that the grant has been spent on the objects for which it was made, any unspent balance being refunded to the Council on the termination of the scheme.

(iv) that the financial assistance rendered by the Council will be acknowledged in any published account of the work for which the grant is given.

(v) that the results of the investigations now to be undertaken will be published in the Indian Journal of Veterinary Science and Animal Husbandry, or the Council consulted before the work is published elsewhere.

(vi) that the equipment and apparatus purchased out of the grant will be the property of the Council and that such items as are non-perishable will be returned to the Council on the termination of the scheme.

(vii) that the receipts realised from the working of the scheme will be credited to the funds of the Council at the end of each year.

(viii) that the approval of this office will be taken if a higher pay than the initial pay of the sanctioned scale is granted to any of the staff included in the scheme.

GEN. & REV. SECTT. 21 JAN. 1941 AGRI. & FOREST BRANCH.

GENERAL SECRETARY. 21 JAN. 1941

FROM

T. G. RAMA IYER, ESQ., B.A.,
DIRECTOR OF AGRICULTURE IN MYSORE,
BANGALORE.

TO

J. Appaji Gowda, Esq., B.A., (Hons.)
General Secretary to the Govt. of H. H. the
Maharaja of Mysore, Bangalore.

SIR

Referring to your letter No.A.F.2564-C.V.46-37-26 dated the 8th November 1940 and subsequent reminders dated the 18th December 1940 and the 11th January 1941, enquiring whether the modified scheme for Poultry Disease Investigation intimated in the I.C.A.R. Secretary's letter No.F.45(17)-39/A.H. dated the 14th October 1940 may be accepted, I have the honour to state that the terms and conditions offered by the Imperial Council of Agricultural Research in the enclosure to your letter referred to above may be accepted.

Dr. P. M. Narayanaswami Naidu is now in charge of the current veterinary research work of the Department and also of the Johne's Disease Investigation scheme in the absence of Mr. K. Ranganatha Rao on deputation to North India. There is no qualified person to immediately relieve Dr. P. M. Narayanaswami Naidu of the current veterinary research work of the Department and also of the Johne's Disease Investigation scheme till the return of Mr. K. Ranganatha Rao who was in charge of the Johne's Disease Investigation scheme till he was deputed to North India. Mr. Ranganatha Rao is expected to return from his deputation in the beginning of April 1941 when he may be appointed Veterinary Research Officer to relieve Dr. Naidu of the current veterinary research work of the Department and of the Johne's disease investigation in which he was workking for nearly four years. It would also be necessary to finish some urgent constructions and secure the necessary equipment for the work before the I.C.A.R. scheme for poultry research is taken up. The new building of the Veterinary Research laboratory may also be ready for

P.t.o.

occupation only in another two or three months. Considering all these circumstances I am of opinion that the Poultry Disease Research scheme may be commenced with effect from 1st of April 1941. In the above view, the cost involved in starting the scheme, the share of the I.C.A.R. and of the Mysore Government is detailed hereunder:-

Items of non-recurring expenditure as passed by the I.C.A.R.	Amount of non-recurring expenditure as passed by the I.C.A.R.	Already provided in the Serum Institute in the last 3 years.	Value of equipment to be provided from the existing resources of the Deptt.	Balance to be provided by additional grant
Special apparatus such as refrigerator, dental machine and Ionometer.	2000	-	1000 (Refrigerator and incubators)	1000
Construction of 4 poultry houses for diseased birds, 2 poultry houses for healthy birds and one pigeon house.	3500	2000		1500
Foster mother feeding-troughs and utensils	1000			1000
Cost of 50 cages with racks	1000			1000
			Total ..	Rs.4500

The above sum of Rs.4500/- may be met from the excess over the budgetted profits of the Serum Institute in the current year.

The following statement gives the details of recurring expenditure involved in the current year:-

Scale of expenditure.	I.C.A.R. share for April, May and June.	Mysore Govt. share for April & May.	Mysore Govt. share to be met by re-appropriation.	Balance of Mysore Govt. share to be provided.
1. Pay of Expert at 300 p.m.	450	300	"	300
2. Veterinary Inspector 50-5/2-90 P.M.	75	50	"	50
3. Laboratory Assistant on 25/- p.m.	37½	25	"	25
4. Typist-clerk on 35 p.m.	52½	35	"	35
5. 4 Poultry men on 10 each	60	40	"	40
6. T.A.	125	42	"	42
7. Subscription to journals at 10/- p.m.	15	10	"	10
8. Purchase of poultry Rs.50/-p.m.	75	-	The poultry will be supplied from the Govt. poultry farms.	
9. Cost of feeding Rs.50/- p.m.	75	50		50
10. Cost of chemicals & glass-ware	125	-	These will be supplied from Serum Institute.	
11. Contingencies Rs.500/- per annum or Rs.40/- p.m.	60	40		40
Total	1150	592		592

101

The additional expenditure to be sanctioned by Government for the current year towards the Mysore Government share of recurring expenditure as stated above is only Rs.592/- which can be met by re-appropriation.

As regards the I.C.A.R. share, the Imperial Council of Agricultural Research may be requested to remit one year's grant viz., one-third of Rs.14,700/- or Rs.4,900/- for the period 1st April 1941 to 1st April 1942 as they usually make payment for an year in one lumpsum in January.

I request the favour of early orders of Government in the matter.

I have the honour to be,
Sir,
Your most obedient servant,

Director of Agriculture.

GENERAL SECRETARIAT
26 MAR 1941

SIR,

I have the honour to state that Mr. K. Ranganatha Rao, Assistant Superintendent, Civil Veterinary Department, who was deputed for a course of advanced training in Animal Husbandry in the Imperial Veterinary Research Institute and other places, has returned from his deputation. As Dr. P. M. Narayanaswamy Naidu has to take charge of the I.C.A.R. Poultry Disease Research Scheme as a wholetime officer, I propose that Mr. K. Ranganatha Rao who has done creditable research work in connection with the Johne's Disease investigation may be posted as Veterinary Research officer in place of Dr. P. M. Narayanaswamy Naidu.

Mr. K. Ranganatha Rao's work has been highly appreciated by the best experts of the Imperial Council of Agricultural Research. He has not had any increment over his salary of Rs.200/- for the last four years. I therefore recommend that Government may be pleased to grant him a salary of Rs.250/- in the grade 125-25/2-300/- fixed for the Veterinary Research Officer.

Pending orders of Government I have issued instructions for Mr. K. Ranganatha Rao to relieve Dr. Narayanaswamy Naidu who has to start Poultry disease research scheme immediately.

I request the favour of orders of Government in the matter.

I have the honour to be,
Sir,
Your most obedient servant,

Director of Agriculture.

Director.

OFFICE OF THE DIRECTOR OF AGRICULTURE,
Bangalore, 7th May 1941.

GEN. & REV. SECTT. 9 MAY 1941 AGRI. & FOREST BRANCH.

Dear Sir,

I write to state that the salary bill of Dr. P.M. Narayanaswamy Naidu, Research Officer, Poultry Diseases, under the Imperial Council of Agricultural Research Scheme and the pay bill of his office staff for the month of April 1941 have not been admitted in audit on the ground that sanction of Government is required both for the appointment of Dr. Naidu as Poultry Disease Investigation Officer and the staff that have been working under the Scheme. The Imperial Council of Agricultural Research Scheme referred to has been approved by Government on the terms and conditions set forth therein and Government in their order No. A.F.6315-16/C.V. 46-37-30 dated 27th February 1941 have been pleased to - sanction the proposals for starting the Imperial Council of Agricultural Research Scheme from 1st April 1941 and also the recurring and non-recurring expenditure attached to it. The recurring expenditure on the staff detailed for the Scheme has been based on the scale of pay for the appointments included under the Scheme. As however, the officer and the staff are put to much inconvenience on account of the withholding of pay, I request that the Comptroller may be kindly authorised to admit the salary and pay bill provisionally, pending any such final orders of Government suggested in the objection memo.

Yours sincerely,

T. G. Rama Iyer

J. Appaji Gowda, Esq., B.A.(Hons.),
General Secretary to Government of

GENERAL SECRETARY.
8 JUNE 1941

SIR

Referring to Government Order No. A.F.6315-16 C.V.46-37-30 dated 27th February 1941, I have the honour to forward, herewith for sanction of Government a reappropriation statement for Rs.600/- from the sanctioned grants of the Serum Institute for meeting the Government's share of expenditure of Rs.592/- during the current ye in respect of the Imperial Council of Agricultural Research Poultr Disease Investigation Scheme.

I have the honour to be,
Sir,
Your most obedient servant,

Director of Agriculture.

D.N.

INSTRUCTIONS.

(1) If on account of exceptional reasons, expenditure which is either not provided for in the budget estimates of the current year or is in excess of the budget provision, has to be incurred, application should be made for the provision of additional funds, accompained by a statement in this form showing how the expenditure is proposed to be met. When such an application is sent, the reason for considering it indispensably necessary that the outlay should be immediately incurred and not postponed to the next financial year should be stated. It should also be explained why the need for expenditure was not foreseen in time for its inclusion in the budget estimates.

(2) The reappropriation statement should be submitted to Government in duplicate through the Comptroller. Care should be taken to see that all the particulars therein required are invariably filled in and that, when necessary, the district details required for audit purposes are given.

(3) In these statements, the figures of the budget estimates must be given and not those of the Revised estimates. Columns 2 and 6 must show the amounts sanctioned by Government in the Bud get estimates; if reappropriations have been made subsequently the alterations sanctioned up-to-date must be shown by plus and minus figures supported by explanatory memos quoting the number and date of sanction.

(4) The Revised estimates should not in any way be connected with such applications, as they cannot be used for purposes either of budget control or of audit.

(5) If any additional funds are required after the 1st May, application therefor may be made direct to Government.

(6) In Columns 3 and 7 (actual expenditure up-to-date) the period should be specified.

(7) The Heads of Departments referred to in Appendix XXII B., M.C. A.C., Vol. I are empowered to sanction reappropriation.
